USIBWC RELEASES 2024 RIO GRANDE BASIN SUMMARY REPORT

The U.S. Section of the International Boundary and Water Commission has issued the 2024 Rio Grande Basin Summary Report.

The purpose of the report is to inform the public, stakeholders, and other agencies as to the condition of the Rio Grande basin, improvements and potential problems within the watershed, the efforts of the Texas Clean Rivers Program and its partners to monitor and assess the waters of the basin, and potential resolutions to any negative trends within the basin.

The report can be found here: https://www.ibwc.gov/wp-content/uploads/2024/09/Rio-Grande-Basin-Summary-Report-Final_IBWC.pdf

This report was done in partnership with the Texas Commission on Environmental Quality.
