UPDATE: CILA SUSPENDS PBCILA PUMP STATION OPERATIONS

The United States, International Boundary and Water Commission (USIBWC) reports the following regarding the South Bay International Wastewater Treatment Plant (SBIWTP) in San Diego, California:

The Comisión Internacional de Límites y Aguas (CILA) advises PBCILA is back online. Two pumps have resumed operation at approximately 7:30 am PDT today.

Heavy rain may continue to affect coastal water quality and beach closures by carrying untreated pollutants from Tijuana directly into the ocean.

The USIBWC continues to coordinate closely with Mexican water authorities, actively monitoring conditions and maintaining communication to support ongoing binational efforts.
